

are the “you”
in your community.

you cannot assume someone else will make the difference **you** can make

Pediatric Patient Assistance Funds

Our public-benefit organization tries to assist families by relieving stressors and contributing towards healthy community strategy. During times of catastrophic or life threatening illness, MMF provides families with assistance in creating everlasting memories and improving quality of life.

The non-profit foundation creates separate Mendiburu Magic Funds at various medical organizations/ hospitals within our given service area; these monies can be used towards any service request related to our MMF mission and/or stated guidelines. The

Mendiburu Magic Fund is only to be used for children (and families effected) ages 0-17 and residents of Kern County and approved/screened by social services staff employed by the partner agency.

Cancer Care & Support

The organization affirms the importance of cancer care, support, scientific research and investigations of new approaches to cancer and any sort of life threatening illness detection, treatment, and prevention. Therefore, we strive to make annual contributions towards accredited cancer research and/or health issues related to our mission.

you can donate now.

Donate online, or contact **Emily Poole** at emily@mendiburumagic.org or **Brian Mendiburu** at brian@mendiburumagic.org for more information about automatic employee payroll deductions and automatic monthly donations from your checking account.
